

DEAR PARTNERS AND UN FRIENDS,

Greetings to our community of readers in Albania and around the world!
We are pleased to share with you our **fourth edition** of the **UN Albania** newsletter
“**Delivering for Development**”.

This issue brings updates on our work during the initial phase of the implementation of our five year programme with the Government of Albania. News illustrate our work to reduce inequalities, advance children’s rights, give a boost to the agriculture, create jobs for young people, help Albania achieve the Sustainable Development Goals and many more.

We hope the range of news and updates we bring through this newsletter is comprehensive and illustrative of the work we are doing in many fronts and across the country.

READ OUR STORIES

With Sweden we help make

homes violence free in Albania

Tone is 33 and a mother of three children. She used to live in a village in Puka, north Albania. During 10 years of marriage, she experienced daily violence from her husband, sometimes even in the presence of their children.

Turning despair into hope with support from the Swiss Government

When Sanlje and Hasan started married life together, their daily life and dreams for the future were vastly different than they were some months ago. Their dreams were shattered when their one year old daughter Sentiljana was diagnosed with spastic cerebral palsy tetraplegia—a condition that affects all four limbs
