

DEAR PARTNERS AND UN FRIENDS,

We are delighted to share with you the third edition of our newsletter: "Delivering for Development in Albania" which brings highlights of our eventful November and December 2016.

Stories and articles in this publication illustrate some of the joint work the United Nations in Albania does - from fighting domestic violence and empowering women, to protecting children and the environment and advancing human rights agenda in the country.

Our work is well aligned with Agenda 2030 and the Sustainable Development Goals, which guide our work every day.

We hope you will find this edition rich in information and evidence of our work on the ground.
